

Child Behavior	Health & Motor	Social-Emotional	Language & Literacy	Cognitive
1 Jackson runs steadily across the playground, occasionally stumbling but regaining his balance.				
2 Mason walks by himself across the living room.				
3 Liam points to body parts when asked, such as 'Where is your nose?'				
4 John is able to stack five blocks on top of each other without them falling.				
5 David watches other children playing, but does not join in.				
6 Abigail waves goodbye when her teacher leaves.				
7 Noah uses a tricycle and can pedal without assistance.				
8 Aaliyah expresses empathy by hugging a friend who is upset.				
9 Emily uses her pincer grasp to pick up small pieces of food like cheerios.				
10 Isabella pulls herself up to a standing position using the couch.				
11 Mateo holds a crayon using his whole hand to make large, circular scribbles on paper.				
12 Ava can jump forward with both feet and land without falling.				
13 Harper coos and makes soft gurgling sounds when talked to.				
14 Lily grasps a rattle when placed in her hand.				
15 Sofia can say simple two-word phrases like 'more juice' or 'mama help.'				
16 Madison solves a simple puzzle by fitting shapes into corresponding slots.				
17 Emma can retell the events of a story in the correct order, using short sentences.				
18 Ella says mama when reaching for her mother.				
19 Grace looks under the blanket to find her hidden toy.				
20 Charlotte laughs and enjoys playing peek-a-boo with her grandmother.				
21 Ben picks up a small piece of food using his thumb and index finger.				
22 Liam pretends to hold a toy phone up to his ear and talk.				
23 Olivia hands a toy to another child when asked to share, but cries afterward.				
24 Elijah points to familiar objects when named, such as a cup or dog.				
25 Ethan matches identical shapes and colors during a sorting activity.
